

Body Contours
Discovering A New You ...

Business Description

Body Contours is an international spa company with a chain of full-service spas in Singapore and Malaysia offering a comprehensive selection of unique beauty and wellness therapies.

Since the Company's inception in Singapore in 1997, the Company's commitment towards 'delighting customers' and belief in 'nurturing lasting relationships with our clients', has seen the brand grow from a single-spa establishment to a spa chain with outlets across Singapore; two of which are located in Singapore's award-winning Changi International Airport.

In 2005, the brand made its foray into the regional spa scene with the establishment of a flagship spa in Kuala Lumpur, Malaysia. The Company also maintains a presence in Australia and India.

Each Body Contours spa is developed as a model showcase of the Company's operational capabilities in providing high-quality beauty and wellness spa services. Today the Company offers a selection of more than 50 unique spa therapies; each carefully researched and developed by the Company's team of R&D wellness specialists.

We invite you to experience a new you. That is our promise.
